

GUILHERME TEODORO RODRIGUES

Software Engineer (Backend & AI) | Python & FastAPI Specialist | LLMs & Agentic Workflows | Industrial Data & IoT Systems Integration | Docker

+55 62 99401-8585 | teodorogt09@gmail.com | [linkedin.com/in/gt-rodrigues](https://www.linkedin.com/in/gt-rodrigues) | [Portfolio](#) | Goiânia, Goiás, Brasil

PROFESSIONAL EXPERIENCE

Software Engineer (Backend & Integration)

Grupo Odilon Santos

05/2024 – 11/2025

- Led digital transformation projects using Python (FastAPI) to automate critical business workflows.
- Designed microservices and APIs to integrate internal systems, eliminating bottlenecks and reducing operational overhead by 70%.
- Developed real-time data support tools and integrated AI models for enhanced decision-making.

Integration & IoT Engineer

Brava Soluções

05/2021 – 05/2023

- Developed custom APIs in Python to integrate industrial IoT sensors with ERP systems for global clients (e.g., PepsiCo, Brainfarma).
- Designed secure OT networks for real-time telemetry acquisition, ensuring hardware-software interface integrity.
- Implemented logistics automation with a focus on scalability and data consistency.

Industrial Data & Automation Analyst

Wtecc Engenharia

03/2020 – 08/2020

- Monitored and optimized floor processes through data analysis, resulting in an 18% reduction in material waste and increased OEE.

EDUCATION

Industrial Automation

Faculdade de Tecnologia SENAI Ítalo Bologna

2017 – 2019

- Advanced Diploma in Industrial Automation | SENAI Faculty (3-year Canadian Equivalency).

KEY PROJECTS

Independent Projects in AI and Automation

11/2025 – Present

- AI Financial Bot (Python & LLM): A backend system integrating Telegram and Notion via API, leveraging LLMs to structure informal data into SQL databases.
- Edge Store-and-Forward Architecture: A Python-based system for mitigating data loss in unstable networks, featuring local buffering and SQL persistence.
- Computer Vision Inventory Control: Automated physical inventory system using vision-based recognition.

SUMMARY

Software & Automation Specialist with 5+ years of experience bridging the gap between physical operations and IT/AI Engineering. Expert in Advanced Python, SQL, and the LLM ecosystem (LangChain/OpenAI). Focused on Clean Code and Defensive Programming to deliver high-availability, scalable systems.

CERTIFICATIONS

English Proficiency Certificate

IELTS

LANGUAGE

- Inglês: Fluent (IELTS)**
- Português: Native**

TECHNICAL SKILLS

- Languages: Python (Advanced), SQL (PostgreSQL, SQL Server), Node.js.
- Frameworks/Tools: FastAPI, Docker, Git, LangChain, REST/GraphQL APIs.
- Orchestration: Power Automate, Power Apps, Make.com.
- Industrial Tech: IoT, SCADA, PLC Programming (Siemens, Allen-Bradley), NR12 Compliance.
